Small Parts Workstation Storage

Often, frequently used parts and supplies are kitted or stored near an assembly station in the plant, office or home. In many cases, it is desirable to have a portable tool case with all the supplies necessary for a maintenance or repair job. SSI has combined several of its standard components to provide a solution for the plant engineer, the home mechanic or handyman. These packaged solutions will provide you with the right part for your job. Additionally, if you have special requirements the uprights and wall panels can be configured to meet your needs.

From Left to Right: FA 4, FA 5, FA 6

Fix Assistant

- Time and space saver for production, repair and assembly
- Sheet metal frame, sides enameled hammer finish
- Galvanized trays, with adjustable tilt
- Raised front edge and back stop
